Water analysis:

Chemical/physical analysis: yes, see appendix

Biological analysis: yes, see appendix

Design data:

Pre-treatment existent: no
 yes, which _____

Raw water from _____

Softening Decarbonisation Partial desalination Silicic acid removal

Required net volume flow: _____ m³/h

Anion exchanger Cation exchanger

Operating time per day _____ h Water requirement per week: _____ m³

Output between 2 regenerations: _____ m³

Installation place available: no
 yes Length _____ Depth _____ Height _____

Intended use: _____

Permissible residual salt content: _____ Permissible conductivity: _____ Permissible silica content: _____

Remarks: _____
