

Oxygen generator (PSA plant)

Application: Drinking water treatment
Problem: Generation of oxygen as process gas for the ozone system
City/Country: Dumbravita/Romania

Project info:

Capacity: 3 x 8,4 Nm³/h oxygen (concentration 92%)
Number of plants: 3 x Lines
Type: Hydroxymat 85
Year of realisation: 2020
Specialities: Oxygen production in 3 lines,
high redundancy
